PROFILE

DESIGNED BY JUSTUS KOLBERG & ERIK SIMONSEN 2004

MOVEO®

Moveo is a multi-usage table family designed by the duo Justus Kolberg and Erik Simonsen to be as flexible as your own agenda. Optimum mobility is ensured by the perfectly designed wheels. It offers a modern solution for meeting, training and conferencing applications as well as easy operation and handling by just one person. Need access to power or data cables from your tabletop? Moveo's clever concealed solution for cables saves space for your computer, papers and other office essentials.

FEATURES

Learn more about HOWE and our Moving Sustainability initiatives here:

<https://www.howe.com/moving-sustainability>

SUPPLIERS

HOWE works closely together with our suppliers to continuously reduce our products' impact on the environment. HOWE is thus setting high environmental demands for both HOWE and our suppliers to comply with.

ENVIRONMENTAL PRODUCT DECLARATION

ISO 14025 (EPD)

Through a thorough Life Cycle Assessment, the Moveo table's performance is summarized in a LEEDv4® and BREEAM® compliant EPD.

FSC®

Most Moveo tables are available as FSC® C041311 certified upon request – the guarantee that the wood origins from forests that have been managed in an environmentally-friendly, socially responsible and economically viable manner.

VOC EMISSION

The Moveo laminated table top emits less than 0.04 mg/m³ formaldehyde which is 69% below the limit value of the E1 standard. What's more, the Moveo laminated table top emits less than 5 µg/m³ of any other Volatile Organic Compound (VOC), and therefore Moveo ensures a healthy indoor air quality.

RESIN IDENTIFICATION

The plastic components of Moveo are marked with ASTM (ISO 11469) resin identification codes whenever possible in order to facilitate correct sorting of components for recycling.

DESIGN FOR DISASSEMBLY

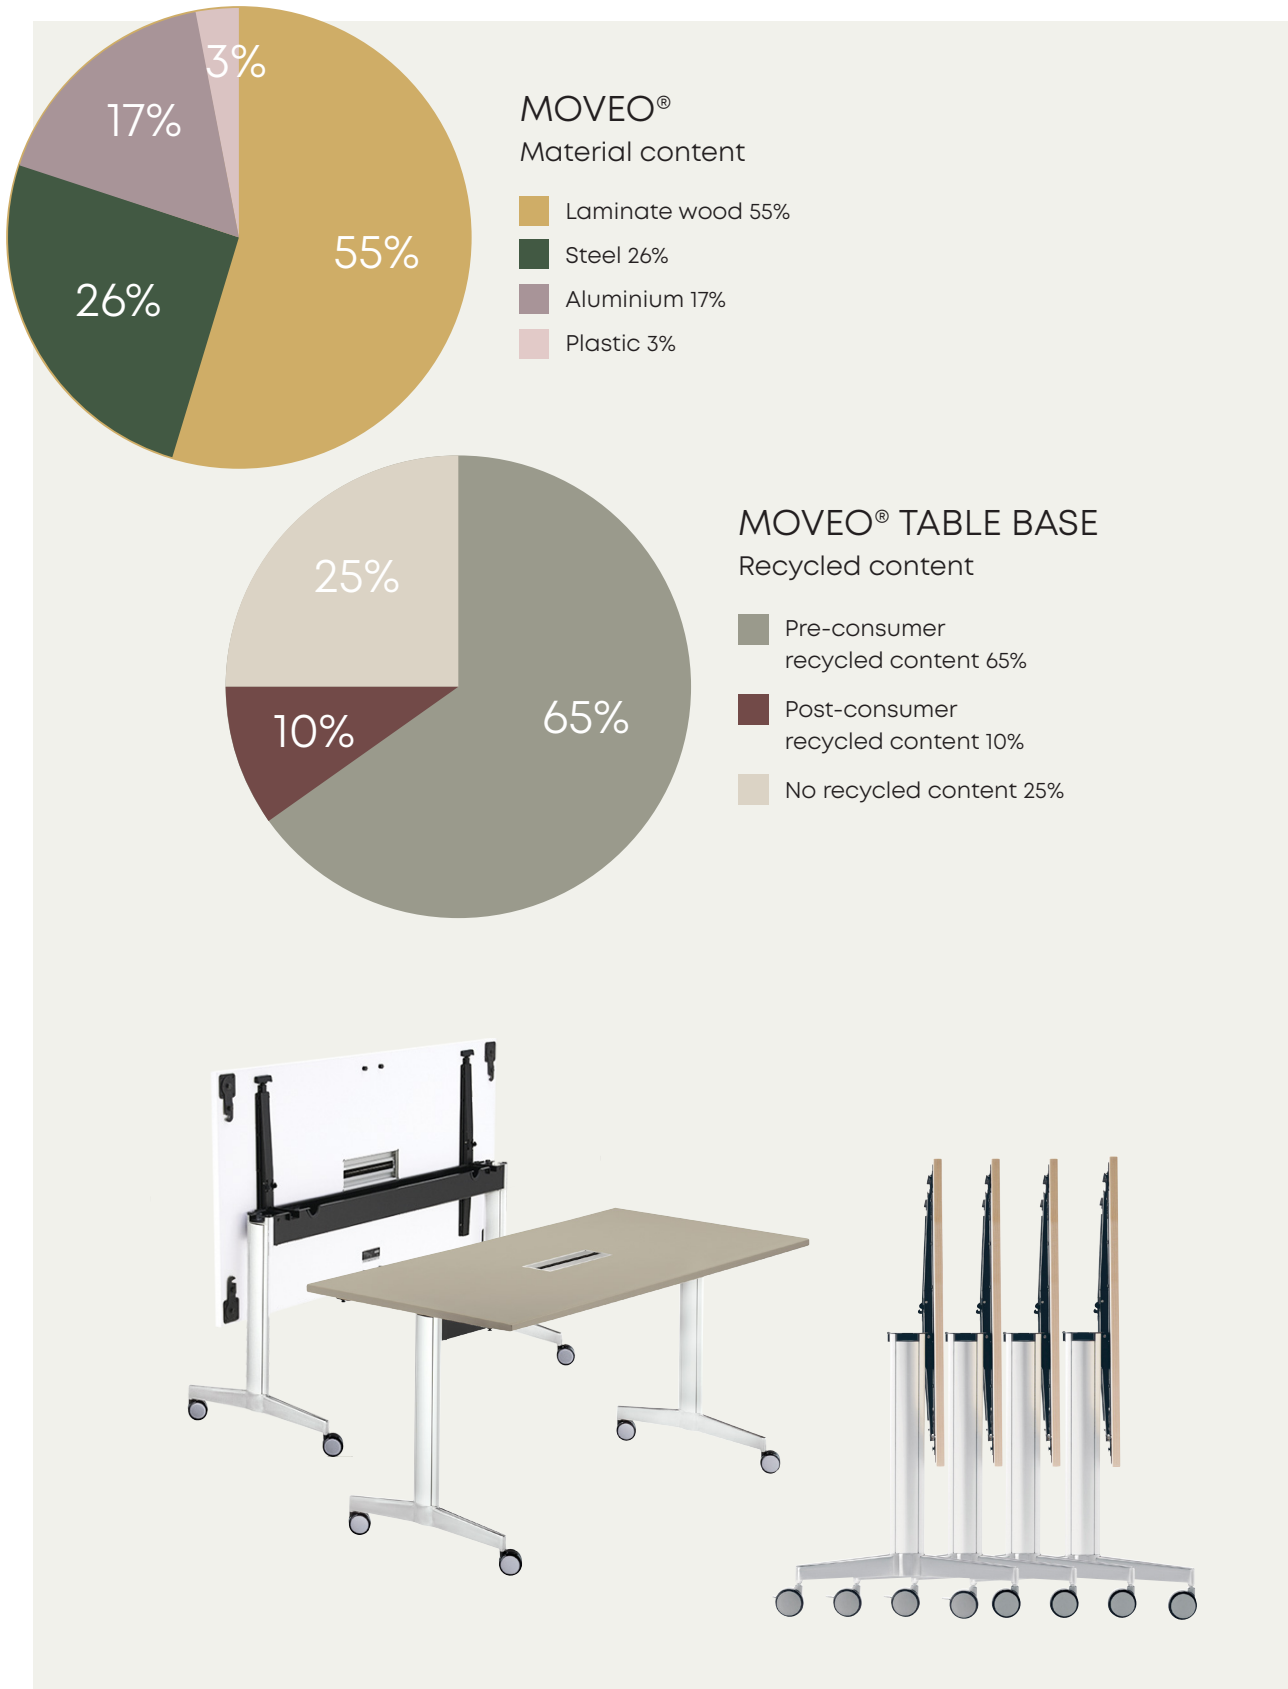

It is a fact that products assembled with complex assemblies or requiring multiple tools are not likely to be repaired or recycled. Therefore, Moveo is cleverly designed to be easily disassembled by the use of a few handtools only.

A SUSTAINABLE TABLE BASE

The Moveo table base is 100% recyclable at the end of the product's life. All steel components of the table base are made from 100% recycled steel. All die-cast aluminium components of Moveo are produced from 90% recycled aluminium, which requires only 5% of the energy it would require to produce the parts from new aluminium.

DID YOU KNOW THAT...

- Moveo is 45% recyclable at the end of the product's life?
- Moveo contains no PVC?
- Moveo is space-saving and thus resource saving both during transport and use?
- Moveo is part of our TakeBack Option and can be returned to HOWE after its useful life?
- Moveo is a combination of timeless and durable design?
- Moveo is cost efficient and replacements of components are easily manageable?
- Moveo is easy to disassemble for recycling?
- Moveo has a 10-year warranty?

Subject to ongoing changes and adjustments.
